

# L2 NATIONAL MODELS & PREDICTIVE ANALYTICS

The L2 HaystaqDNA preference models offer a quick and easy way for users to identify voters based on their likely feelings towards issues or candidates, as well as those who are likely to exhibit specific behaviors. The 160+ models include hot-button issues of the day to topics that have been central to American democracy for decades. These models are presented as scores ranging from 0 to 100, along with flags to quickly identify those most likely to support, oppose, or behave in a certain manner.

The data are available in L2 DataMapping and across numerous digital platforms and integrations. Find out more by emailing [info@L2-data.com](mailto:info@L2-data.com).

## HaystaqDNA Issue/Behavioral Models

### Behavior

- Activism
